

## Listing of Acceptable Exterior Colors for Cumberland Manors

Colors must still be submitted to the Architectural Committee for approval on a color match, combination, and the area colors are to be used.  
An approved color does not necessarily mean the combination or area to be used will be approved.

**Note: The Architectural Control Committee and Green Acres have samples of acceptable colors for viewing. Home depot, on N. Dale Mabry (across from Gaither High School) and Lowes (on Waters) also have a Cumberland Manors file in their paint department for viewing. Colors may also be seen at any store carrying Behr or American Tradition paints. Behr and American Tradition paints do not have to be used. These colors can be matched for any brand of paint and purchased at any store or with any paint contractor.**
